SUMMARY

Software Developer with 5+ years of professional experience building, testing, and maintaining web applications and shared software solutions. Strong background in TypeScript and modern web development with experience building frontend applications, REST APIs, backend services, automated testing, CI/CD, and production deployments. Experienced collaborating across teams, maintaining shared infrastructure, and developing reusable solutions that improve consistency and maintainability.

WORK EXPERIENCE

Avidxchange

Dec 2020 - Feb 2026

UI Software Developer II

- Built a design system using Angular, Tailwind, and Storybook, creating 30+ reusable components adopted across 10+ micro frontends, standardizing UI development and reducing duplicate implementations.
- Contributed to frontend engineering standards within the UI Center of Excellence, developing shared resources and evaluating technologies for adoption across teams.
- Developed and deployed features across 4 micro frontends, contributing to CI/CD pipelines and automated unit and E2E testing using Cypress and Playwright.
- Maintained a large Nx monorepo supporting multiple applications and shared libraries, leading biannual dependency upgrades and resolving compatibility issues to maintain application stability.
- Progressed into leadership of the Design System team, contributing to an open contribution model that enabled cross-team development and standardized tooling.

Carolina BioOncology Institute

July 2020 - Dec 2020

Jr. Software Developer

- Developed Sharepoint pages using Javascript and CSS to enhance internal workflows.
- Enhanced Wordpress websites using UI/UX skills and optimized SEO for better usability and search ranking.
- Worked with multiple departments on feature development to ensure project alignment.

PROJECTS

LinkPulse — React, TypeScript, Go, PostgreSQL, Clerk, Docker | [GitHub](#) | [Live Demo](#)

- Built a Full-stack URL shortening application with a React/TypeScript frontend and Go REST API backed by PostgreSQL.
- Implemented Clerk authentication and user-specific link management with REST APIs for CRUD operations.
- Implemented PostgreSQL for click tracking and dashboard statistics with typed frontend API services.

SKILLS

TypeScript, JavaScript, Go, Angular, React, Next.js, NgRx, RxJS, TailwindCSS, Storybook, Nest.js, REST APIs, PostgreSQL, HTML, CSS/SCSS, Jest, Cypress, Playwright, Cucumber, Git, GitHub, Azure DevOps, CI/CD, Nx, Docker

EDUCATION

University of North Carolina at Charlotte - Charlotte, NC

2020

Full Stack Web Development | Coding Certificate

A 24-week intensive boot camp program focused on gaining technical programming and market-driven skills in HTML5, CSS3, JavaScript, jQuery, Bootstrap, Express.js, React.js, Node.js, Database Theory, MongoDB, and MySQL.
